Auto Accidents – Malpractice – Accident and Injury Law

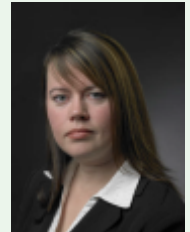

You've probably seen me on the news recently helping injured people in cases like the Breast Cancer Class Action. But we at Ches Crosbie Barristers don't just do big complicated cases.

Darlene Russell

We've been leveling the playing field for clients in all types of accident and injury cases *especially auto accident cases*, since 1991. We've also been leaders in providing useful legal information to the consumer.

I am taking this to a whole new level with my startling new book, *7 Deadly Sins That Can Wreck Your Injury Claim*, available this May and free to residents of Newfoundland and Labrador.

Auto Accidents – Malpractice – Accident and Injury Law

I wrote the book to help the consumer decide whether they need a lawyer, and if they do, to show them how to find a lawyer who is right for their case.

If you would like a copy of this provocative new book, or if you want to talk to a lawyer, call our office 24 hours a day at 579-4000 or 1-888-579-3262.

I wrote *7 Deadly Sins* to do what I do best - *level the playing field for injury victims.*
